Interpretation of the results is not a diagnosis. Diagnostic conclusion is performed by the patient's treating clinician. The laboratory is not responsible for the consequences of self-interpretation of the results by the patient. The results, obtained are applicable to the specific test sample. When presenting a certificate for crossing the border, the period between the date of arrival at the border and testing should not exceed 4 days. A time frame for getting the laboratory test results to identify the RNA coronavirus COVID-19 (SARS-CoV-2/SARS-CoV) in nasopharyngeal and oropharyngeal swabs is within 24 to 48 hours, Therefore, when planning a trip, is it necessary to get tested within 3 days before departure. If you get tested earlier, the certificate will be expired, if later, you don't have time to get the result of this analysis before the planned departure.

Kit type: A set of reagents for the detection of RNA of SARS-CoV-2 coronavirus of severe acute respiratory syndrome (COVID-19) by the polymerase chain reaction method "AmpliPrime SARS-CoV-2 DUO" according to TU 21.20.23-083-09286667-2020.

Kit manufactured: LLC "Next-Bio", nextbio.ru; build 8, Polimernaya str., Moscow, Russia +7 495 620-08-73, info@nextbio.ru; RU № RZN 2020/10837 from 15.06.2020.

Extraction, amplification, detection – LLC VitaLab (VITALAB.EXPERT), Building 11, Mokovsky Proezd 2nd, Kursk, Russia. Tel. +7 800 2227746 License LO-46-01-002376 from 28.01.2021 issued by the Health Committee of the Kursk Region of Russian Federation.

SARS-CoV-2 - Severe acute respiratory syndrome coronavirus 2 (or COVID-19 virus, 2019-nCoV, Wuhan seafood market pneumonia virus)
